DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(c), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(c) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submissions filed on 07 November 2008 and 18 November 2008 have been entered.

Response to Amendment

2. **Claims 1-17 & 22-26** have been cancelled as requested.
3. **Claims 18-19** have been amended as requested and examined as such.
4. **Claims 27-30** have been added and examined as such.

Allowable Subject Matter

5. Newly added independent **claim 27** is allowed.
6. Newly added **claims 28-30** are allowed, dependent on **claim 27**.
7. **Claims 18-19** are allowed as amended, dependent on **claims 27-28**.
8. **Claims 20-21** are allowed as presented, dependent on **claim 19**.
9. The following is an examiner's statement of reasons for allowance:
10. As related to newly added independent **claim 27**, and therefore the dependent **claims 28-30 & 18-21** which inherently contain all of the limitations of **claim 27**, an additional search was

conducted based on the newly claimed limitations and the existing prior art of record as well as additional cited art fails to teach or fairly suggest an ink tank comprising all of the structural components and limitations as claimed, particularly, but not limited to, a rigid housing having a bottom wall with a portion being light transmissive, and a top wall connected by a side wall, an ink supply port ... positioned in the bottom wall, a horizontal wall extending horizontally from the side wall to face the bottom wall... an optical reflector disposed on the horizontal wall so that a reflecting surface of the optical reflector faces the bottom wall. While the additionally cited art Torigoe et al. (US 5,975,665 A) teaches a residual quantity detection system for an ink jet recording device where the bottom wall is transparent, there is no horizontal wall, as the reflective surface is the boundary portion, and therefore the limiting of the present application, to include a bottom wall, a top wall and a horizontal wall extending from a side wall that faces the bottom wall with the optical reflector facing the bottom wall disposed thereon as specified above and further detailed throughout the claim(s) resulted in the above mentioned separation of the present application from the prior art of record.

11. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John P. Zimmermann whose telephone number is (571)270-3049. The examiner can normally be reached on Monday - Thursday, 7:00am - 5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Luu can be reached on 571-272-7663. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
